Precision Inspection Services and Affiliates Announce
the Acquisition of Advanced Corrosion Technologies & Training

Geismar, Louisiana – June 30, 2026 - Precision Inspection Services, LLC ("Precision"), the preeminent provider of non-destructive testing and heat treatment services across the Gulf Coast, is pleased to announce a strategic partnership with the acquisition of Advanced Corrosion Technologies & Training, LLC ("Advanced Corrosion"), a Sulphur, LA-based leader in non-destructive testing and corrosion inspection programs. The partnership brings Advanced Corrosion's decades of expertise in corrosion monitoring and advanced services to Precision's dynamic and growing NDE platform, creating a one-stop shop for facilities across the Gulf Coast.

"Advanced Corrosion represents an ideal addition to our company, from both a capabilities and values perspective, creating a number of complementary strengths that will allow us to better serve our customers" said AJ Smith, CEO of Precision. "The Advanced Corrosion team is extremely talented and has built a best-in-class platform over the past 20 years, and we look forward to furthering that legacy through the many opportunities this partnership provides" said Chris Petitto, President of Precision.

Customers can expect uninterrupted service and uncompromising quality throughout the transition, with no change to points of contact. For any questions or to inquire about our expanded service portfolio, please contact AJ Smith at a.smith@precisionwtt.com.

About Advanced Corrosion
Advanced Corrosion is a Sulphur, LA-based provider of non-destructive testing services with a market-leading emphasis on corrosion detection. Over the last 20+ years, Advanced Corrosion has built entrenched relationships with leading chemical manufacturers across the Sulphur and Houston markets, focusing on maintenance services and nested crews.

About Precision
Precision is a Geismar, LA-based provider of non-destructive examination and post-weld heat treatment services. With a comprehensive service offering across basic and advanced methods, Precision serves a wide range of customers from its offices in Geismar, LA, Sulphur, LA, Beaumont, TX, and La Porte, TX.
